# Part 1: Understanding Society: India and Beyond

# Chapter 1: Understanding Social Science

Easy Revision Notes

## 1. What is Social Science?

Social Science is the systematic study of human society, people, and their relationships. It helps us understand how people live, work, interact, and organize their communities.

## 2. Main Branches of Social Science

**Geography:** Studies the Earth, places, environment, and the relationship between people and their surroundings.

**History:** Studies the human past and helps us understand how societies changed over time.

**Political Science:** Studies government, political systems, laws, rights, and how decisions are made.

**Economics:** Studies resources, production, distribution, consumption, and how people make choices.

## 3. Important Terms

**Society:** A group of people who live together and share relationships, rules, and ways of life.

**Environment:** Everything around us, including natural and human-made surroundings.

**Government:** An institution that makes decisions, creates rules, and manages a country or area.

**Resources:** Things that people use to satisfy their needs, such as water, land, and minerals.

**History:** The study of events and developments from the human past.

## 4. Short Question Answers
